

GILA VALLEY RAILWAY TO EXPEND \$100,000 ON IMPROVEMENTS IN GLOBE

Shops to Be Rebuilt, New Round House, Passenger Station and Mammoth Freight Sheds to Be Constructed

CONSTRUCTION WORK ON ROUND HOUSE TO COMMENCE THIS MORNING

New Depot Will Be Mission Style of Architecture and One of the Finest Stations in the Southwest--Other Improvements Contemplated

In the next six months the Gila Valley, Globe & Northern railroad will spend for improvements in the city of Globe a sum aggregating approximately \$100,000. The first work will begin this morning, when ground will be broken for a new six-story roundhouse. As soon as practicable, which, according to officials of the road will be very soon, work will begin on the new shops, freight depot, the new passenger station and the enlargement of the local railroad yards. For the last few days three prominent officials of the Randolph lines have been in Globe preparing for the beginning of the work and all preliminary arrangements having been completed and the work actually begun, they will return to Tucson this morning. They are J. C. McClurg, engineer of maintenance and way; Superintendent Small of motive power for the lines, and J. B. Finley, master car builder. The construction of the new roundhouse, which begins today, was the first work slated for completion, owing to the pressing need for such a building. The old one having been destroyed by fire just a year ago Monday, when the shops of the company were also destroyed. The new freight depot, which will be located a short distance south of the present one, will be 182 feet long and 40 feet in width.

The new shops of the Gila Valley road will build new shops in Globe will come as an exceedingly agreeable surprise to the people of Globe. It has been the openly announced intention of the company not to build shops here, and even the plans for the new improvements contained only a provision for a car repair track. A short time ago the company purchased a tract of land of over two hundred acres at Bowie and it was given out that the new shops for the road would be erected on this land. It was only recently that the company reconsidered this determination and decided to erect shops in this city. Mr. McClure stated last evening to a Silver Belt representative that the new shops, including the roundhouse, would be constructed at a cost of about \$50,000. The freight depot will be of frame construction, but the new passenger station will be one of the finest in the territory. It will be built of stone and in mission style. It will be two stories high and the ground floor will contain, beside the ticket office and baggage room, a general waiting room and a ladies' retiring room. On the second floor Superintendent Mallard will have his offices and all of the local officials will also occupy offices on this floor. Many other improvements are being planned by the high officials of the company for the Gila Valley line and they will be made public in due time.

SHORT \$100 WITH BARBERS UNION

J. W. Arthur, Treasurer, Arrested on an Embezzlement Charge by Union

Fleeing from justice as rapidly as fast stages and horses could carry him, J. W. Arthur, for the past year treasurer of the Globe Barbers' union, was yesterday overhauled at Tortilla Flat by the officers and will be brought back to the city to answer a charge of embezzlement. Arthur, who is at present held a prisoner at Roosevelt, is charged by the local union with being short in his accounts about \$110. The members of the union have been cognizant of his crooked manipulation of the funds of the organization for some time and on Sunday last an auditing committee was appointed to check up the treasurer's books. Arthur heard of the step and on Monday took the stage for Roosevelt, evidently intending to leave the country. A warrant was sworn out for his arrest and all the stage stations between Globe and Mesa were notified to look out for the young man and, if possible, detain him, with the result that the fugitive was arrested yesterday at Tortilla Flat and taken back to Roosevelt for safe keeping. Arthur, upon reaching Roosevelt, to throw the officers off guard, walked out of the town and caught the stage about three miles down the road. When arrested he was in company with a party named McFellieck, who is wanted in Gila county for carrying a gun, and who was placed under bond in Justice Thomas' court on Monday. He will be returned to this city with Arthur. Deputy Sheriff Voris will leave for Roosevelt this morning and will return with the prisoners. Arthur has resided in Globe for a number of months and for a few weeks prior to his flight conducted a shop on lower Broad street, which he is said to have purchased on time and abandoned without securing a successor.

CLERKS UNION WINS VICTORY

Abraham Bros. Have Agreed to Sign Agreement to Close at 6 o'Clock

Abraham Brothers, the lower Broad street grocers and confectioners, who have been giving the clerks' union more or less trouble during the past month, have capitulated, agreed to sign the 6 o'clock closing contract and be good in the future. This change of heart was occasioned by the presence of pickets, who have been on duty near the Abraham store for two days past. Late last night about 6 o'clock Abraham notified the president of the clerks' union that the firm had decided to abandon the sale of groceries on Sundays and after 6 o'clock and requested that the pickets be withdrawn. Their request was complied with. This is the first instance in the history of Globe labor organizations that pickets have been authorized by a local union.

H. WALTERS HAS BEEN RELEASED

Believed to Be Innocent Victim of Circumstances—Maher Tells His Story

Herman Walters, bartender employed at the St. Louis saloon, who was arrested on Monday night charged with receiving property known to have been stolen, was yesterday, on motion of the district attorney, allowed his freedom on his own recognizance. The opinion prevails in official circles that Walters is an innocent victim of circumstances. William Maher was in Justice Thomas' court yesterday for investigation. He stated that he told his partner, Ole Smith, not to buy the cigars offered by Ed Hodges, the dope fiend and self-confessed burglar. Maher said that they didn't look good to him. Returning to his saloon after an absence of a few hours, he was informed that the cigars had been purchased for \$40. In explanation of how he indirectly came into possession of a portion of the "queer" goods, he stated that Smith, who had bought his interest in the business for \$100, had made no effort to pay him and that he had taken some stock from the saloon to satisfy this bill. None of the accused have been formally arraigned. Ed Hodges, the drug fiend, has practically recovered and may be given a hearing in Justice Rawlings' court today.

LANDIS IS MADE GENERAL AGENT

Unprecedented Globe Business of Valley R. R. Responsible for a New Office

On account of the tremendous increase in the business of the Gila Valley, Globe & Northern railroad, changes other than those to improve and augment the capacity of the road have been made. A new office has been created, that of general agent, with headquarters in Globe, and Lee H. Landis of Phoenix has been appointed to perform the duties of the new office. Mr. Landis arrived in the city last evening accompanied by his wife and George Mauk of Phoenix, who will act as his chief clerk. Of late the business of the railroad in Globe has become so congested that its handling has become a serious problem. Mr. Landis will have charge of the traffic of the road here, the claim department and terminals. For the last two and a half years he has been general agent of the Maricopa & Phoenix road at Phoenix, and previous to that held a similar position with the Santa Fe. He is an experienced railroad man and on previous visits to Globe has become thoroughly acquainted with local conditions. During the last two years the business of the Gila Valley road in Globe has increased to such an extent that it exceeds that of any point on any of the Randolph lines, but there has been no

proportionate increase in the local office force. Agent Blackford and his staff have been worked night and day handling the office and terminal end of the business and the amount of business reached a stage where a much larger force was required. With the coming of Mr. Landis Mr. Blackford's duties will become less arduous and the relief will undoubtedly be greatly appreciated by him. Mr. Landis states that his first work will be to expedite the delivery of freight to local consignees, the accomplishment of which will be more than appreciated by the business and mining men of the city and district.

O. D. SMELTER IS IN FULL COMMISSION

Three furnaces at the O. D. smelter were out of commission yesterday, which gave rise to the report that the company had decided upon a drastic curtailment of copper production. The closing down of the furnaces was occasioned by the shifting of the boilers at the power house, necessitating the making of new steam and water connections. The temporary suspension also afforded opportunity to make needed repairs to the smelting plant. Four furnaces will be in commission again this evening.

TO ORGANIZE PRESBYTERIAN CHURCH AT GLOBE

Rev. F. C. Reid, pastor at large of the Presbyterian Church of Arizona and in charge of the missions, is in this city for the purpose of organizing a Presbyterian church. A meeting for this purpose will be held in the district court room tonight at 7:30 o'clock. There are quite a number of Presbyterians in the city and there is no doubt but what a healthy organization will be perfected here. Mr. Reid was at one time pastor of the church at Flagstaff.

NEW SUPERINTENDENT AT O. D. ASSUMES DUTIES

George Kingdon, who was recently appointed to succeed N. S. Berry as mine superintendent of the Old Dominion company, began his new duties yesterday. Mr. Berry will remain with the company until his successor becomes fully acquainted with conditions at the mines. Mr. Kingdon formerly resided in Globe and worked as a miner here for a number of years. He afterwards went to Nacozari, Sonora, where he became mine foreman for the Mocuma Copper company, a Phelps Dodge company. He is a practical miner and through long experience is splendidly equipped for the position to which he has been appointed.

COPPER TAKES ANOTHER DROP

London Report Weakens Local Market—Stocks Down a Full Point

By Associated Press. NEW YORK, October 9.—Copper was lower in London with spot at £62 5s and futures at £61. Locally weak and a little lower. Lake, 14 to 14.50; electrolytic, 13.62½; casting, 13.50. Lead was unchanged at £19 10s in London and also unchanged locally. Spelter, 2s 5d higher in London at £21 17s 6d; locally firm at 5.55. Iron was lower in the English market, with standard foundry at 53s 3d and Cleveland warrants at 54s 3d. Locally quiet and unchanged.

Copper Stocks

NEW YORK, October 9.—Copper stocks dropped a full point all along the line today. Quotations at the close of trading were as follows:	
Amalgamated	\$5.87
Anaconda	35.00
North Butte	45.00
Greene-Canaan	6.75
Old Dominion	21.50
Arizona Commercial	11.50
Shannon	10.00
Superior & Boston	2.75
Denn	4.75
Globe Consolidated	6.75
Superior & Pittsburgh	9.00
Calumet & Arizona	103.00
Utah Consolidated	33.00

POPULAR YOUNG GLOBE PEOPLE WED IN TEXAS

J. G. Naquin, a member of the firm of Naquin & Co. and one of Globe's prominent young business men, and Miss Grace M. Dodge, also of this city, were united in marriage at El Paso last Sunday and are now on their honeymoon tour. Miss Dodge, who has been visiting relatives in Connecticut for several months, was met at El Paso by Mr. Naquin Sunday and they were married at one of the local parsonages. The bride has for some time been a resident of Globe and has been prominent and popular in social circles. The Silver Belt unites with the many other friends of the happy couple in extending congratulations and well wishes.

FALLS TO AN AWFUL DEATH AT POST OF DUTY

Thomas Ransom Almost Instantly Killed in Accident at Old Dominion Mine.

SKULL BADLY CRUSHED BY MOVING FLY WHEEL

Passes Away at Hospital While Surgeons Are at Work without Regaining Consciousness—Inquest This Morning

Slipping on a concrete floor in the engine room of the hoist in shaft A, Old Dominion mine, Thomas Ransom, an oiler, fell to almost instant death yesterday evening about 6 o'clock. The unfortunate man, at the time of the accident, was in the act of oiling parts of the engine in the vicinity of a large rapidly revolving fly wheel. In the fall his head came in contact with the wheel, which frightfully crushed the skull, portions of the brain oozing from the gaping wound.

The engine was stopped as quickly as possible and the almost lifeless form removed from the fly wheel pit, into which the body had been drawn by the revolving wheel. In an unconscious condition Ransom was taken to the Old Dominion hospital, where he passed away while the surgeons were dressing the wounds without regaining consciousness. The remains were taken to the morgue of the Jones Undertaking company, where they will be held pending advices from relatives in Missouri. An inquest will be held this morning in the office of Justice Thomas, acting as coroner.

Deceased was 52 years of age, and believed to be single. He has been in the employ of the Old Dominion company for the past year and was regarded as a faithful, competent employee. At a late hour last night it was learned that deceased has a sister residing in Kansas City. She has been notified of the death of her brother and will instruct local friends regarding the disposition of the remains.

WILL TRAVEL 2,000 MILES IN A WAGON

EXPECT TO BE FOUR MONTHS ON JOURNEY—WILL HUNT AND FISH

Across the barren desert and over the rugged mountain ranges, along the narrow roads that run through the various passes, over the broad Texas plains to the new state of Oklahoma, a journey of more than 2,000 miles by wagon, is the trip which Jack Davidson and Bird Hatch, two well known local bricklayers, and Fred Walker, a plasterer, will make, says the Tucson Citizen.

With a strong team and a heavy wagon, which will weather the rougher roads, this sturdy trio will leave here on Saturday morning on their trip to the east. Their destination is Guthrie, Okla., and they expect to be traveling for the next four months. They will journey leisurely and expect to be in Guthrie by February. It was their original intention to go by way of Flagstaff and the northern route, but when they learned that this would be considerably out of their direct line, they decided to go by way of Globe and to stop for a few days in the White Mountain country in an effort to secure several bearskins, which they hope to take with them as souvenirs of their hunting prowess. "We expect to have a good time along the road, hunting and fishing whenever possible," remarked Davidson today. "The journey may seem a bit hard, but it will be a paradise compared with some of the drives I have had over the scorching Nevada deserts."

FOR THE WORLD'S CHAMPIONSHIP

Chicago Nationals Defeat Detroit Americans in the Second Game

By Associated Press. CHICAGO, October 9.—The Chicago Nationals defeated the Detroit Americans for the second game for the world championship this afternoon. Score, 3 to 1. Slow pitching and several slight accidents caused the contest to lag for over two hours, the delay trying the patience of the big crowd which again filled almost every inch of sitting room.

The locals discarded the new gray suits in which they appeared yesterday, appearing in clean white uniforms. The change seemed to put them more at ease and apparently benefited the Detroit players, for both teams played more steadily than on the opening day. After the first hour and a half some sparkling fielding, fine base running and sharp hitting hastened the game to an end. Mullin and Pfister pitched. Payne went behind the bat in place of Schmidt; otherwise the teams were lined up as on the preceding day. Schmidt's retirement was primarily due to inaccurate throwing. The crowd numbered 21,900 as against over 24,000 yesterday.

RANGERS PREPARE TO RAID RUSTLERS' LAIR

The rangers, under Sergeant Olds, in the northern part of the territory, are getting ready to make their long ride into the strip of country between Colorado and Utah, which is said to be infested with a bad gang of horse thieves and outlaws. This trip has been postponed for some time on account of the men whom Olds wished to take along being occupied in other business. He has a force of seven men in the northern part of the territory and probably will take the larger portion of them with him on the trip. The trip will take considerable time, as there is quite a stretch of country to cover.

Most of the rangers in the southern part of the territory are in attendance at the fall roundup and are watching to see that there has not been any burning of brands, or taking of calves bearing the wrong brands in the various herds.

O. D. DOES NOT WANT BUILDING

Library Structure Not Suitable for Office—Will Make Good Promises Made

The story published in yesterday's Silver Belt in reference to the Old Dominion library building was in some respects erroneous. It appears that a number of the resident taxpayers in North Globe are in favor of turning the building over to the Old Dominion Copper Mining & Smelting company upon the company agreeing to receive the property and refund to the North Globe townsite the amount of money contributed by North Globe for the construction of the library building. The proposition was made by taxpayers of North Globe to Superintendent R. R. Hegardt of the Old Dominion company, and was by him referred to President C. S. Smith during the latter's visit here. In view of the fact that the building is not adapted for general offices, the eastern management of the company rejected the proposal and the matter stands as before. The company's position on the question of establishing a public library in the building erected for that purpose at a heavy expense to the company has not changed and it remains for the people of North Globe to fulfill their part of the agreement. The present offices of the Old Dominion are inadequate to accommodate the increased business of the company and it is the intention to erect a more commodious building for general offices.

THE OLD INDIAN INVITED DEATH

Story of Murder of "Old Jim" as Told by the Eye-Witnesses

"Old Jim, the Indian murdered at Gisela last week, may have been a victim of his own folly," said Deputy Sheriff Armer yesterday before leaving for his home in Roosevelt. "According to the story of the tragedy," continued the deputy, "as related on the witness stand, Jim was the aggressor in the hostilities. He left his tepee on the fatal afternoon and, going to where his slayers were located, bantered them for a fight. They refused and the old man retired. Later he appeared with his gun and fired two shots, presumably in the air. The young bucks, evidently thinking he was shooting at them, secured their guns and opened fire. Two shots brought the old warrior down, and then, it is said, the young fellows rushed to where the prostrate body lay and fired two more shots into the old man. To make certain that Jim was dead, one of the bucks pounded him over the head with his gun. "We experienced but little trouble in capturing the slayers. One of them made an effort to secure a gun, but he was warned by friends and after hiding for a while came out and peacefully surrendered. It is quite evident that the Indians had a quarrel before the killing."

SUPERIOR & BOSTON PAYS THOUSANDS OF DOLLARS TO CLAIM OWNERS

Clear Title to Twenty-Two Claims Practically Secured and the Greater Portion of the Money Was Paid Over a week in Advance of Option Time

On last Monday, through its local representative, H. V. Snell, the Superior & Boston Copper company made the final payment on a number of claims which were purchased last winter when the company purchased the properties of the Globe & Arizona Development company. The payment, which amounted to \$28,000, was not due until October 12, and the original owners of the claims received their money a week before the time specified in the option. It is not quite a year since the property was taken over, since when there have been two payments of 10 per cent each made. The full price for the twenty claims was \$35,000 and Pat Rose received the largest share of the payment. The other original owners who shared in the payment included W. S. Sultan, Howard T. Wayne, Henry Shoap, Bert

Jackson, H. H. Pratt, Arthur Moore, J. C. Gibson and K. H. Pearson, all of whom are residents of Globe. Next Monday the Superior & Boston company will make the final payment on two claims acquired at the same time. The original price was \$6,000 and the amount to be paid over Monday will be \$4,000. D. James, Will Rose and Joe Ryan will share in this payment. After the payment is made next Monday, the Superior & Boston company will have clear title to the twenty-two outside claims and the only payments then due on the property of the company will be on the claims bought from the Globe & Arizona Development company, which include the claims on which the company is now doing extensive development work with such excellent results.

GLOBE TEAM WILL MAKE GOOD SHOWING AT THE TUCSON TOURNAMENT

Club is in Daily Practice and Will Be Strengthened by New Blood—Business Men and Fans Will Give Financial Aid to Local Team

If given the proper support by the business men and baseball fans of Globe, Manager Joe Prochaska of the local ball club will take a winning team to the big tournament which is to be held at Tucson on October 20 to 27. There is, however, every indication that there will be no lack of funds to defray the expenses of the trip, as all of the fans are anxious to see Globe send a team to the tournament fast enough to cop the big end of the purse. Manager Prochaska has successfully managed the team without once calling for financial assistance from the supporters of the game, but because of the heavy expense entailed in taking the team to Tucson for over a week, more funds than are in the treasury of the club will be required.

The boys are practicing diligently for the tournament and from the lineup so far as known at present, they should land well in the money. The pitching staff will be strengthened by the addition of Kittle Knight, who is well known to local fans. He pitched for El Paso in the tournament here last fall and during the past season has been pitching for Austin in the Texas league. Collins will also pitch and Andy Malcolm and Gus Inyon will alternate behind the bat. Morty Graham, formerly of Phoenix, will play first and the second bag will probably be occupied by Denny Ford, who is expected to come here with Knight after the Albuquerque tournament which is now in progress at the New Mexico territorial fair.

El Paso Loses First

In the first game of the baseball tournament at Albuquerque, El Paso was defeated by a fast bunch of ball players, playing under the name of Socorro, on Monday. This team is made up of the best players from Santa Fe, Trinidad, strengthened by four league men, and El Paso was clearly outclassed.

McCall, for El Paso, was his hard and frequently, and this being coupled with very poor support, the game was never in doubt. Edmonds, McCall and Sullivan were the only men who could connect with Rhoades' curves. Ford, at times, did brilliant fielding. Perkins, Harkett and Knight pulled off a fast sensational double play.

The four teams that have entered the tournament are Albuquerque, Socorro, El Paso and Silver City. Score: R. H. E. El Paso ..... 3 5 7 Socorro ..... 8 14 3 Batteries: McCall and Edmonds; Rhoades and Pinkerton. Umpire, Frank Selee.

HE WILL REFORM GILA DEMOCRATS

George Mauk, Maricopa's Republican Leader, Located Permanently in Globe

It looks very much as though the republicans of Gila county are at last to have a leader. George Mauk, the republican boss of Maricopa county, arrived in Globe last night with the announcement that he is here to stay; also that he is out of politics and in the railroad business. It is his first time in Globe and of course he was immediately informed that Globe and Gila county were firmly entrenched in the democratic ranks. Then George gave himself away. He said he would make it a republican stronghold. George came here to be ostensibly chief clerk for Lee H. Landis, recently appointed to the newly created office of general agent for the Gila Valley railroad. Those who know his political proclivities, however, imagine that he has been sent out as a missionary to convert the democrats of Gila county to Rooseveltian republicanism—or rather the Forakerian brand, as Teddy R. is my male with the Arizona G. O. P. And then the word may have gone forth to the powers that be that the Gila county republicans were leaderless and the little boss from Maricopa and erstwhile chief clerk of the territorial legislature was sent here to guide them out of the wilderness. Of course, George may have really come here to work for the railroad, but even if he has, it is a dead cinch that he will mix up a little political dope in his business and if he isn't pulling a big string in the next republican county convention, it will be because something has happened to him, or because he has returned to the province of Maricopa to discipline some of his recalcitrant henchmen. Even outside of politics, George is a good booster and a good man for the community and it is hoped that he has really decided to stay here, as he has stated.

COSTLY FIRE VISITS UNITED VERDE MINE

A special dispatch to the Journal-Miner of Prescott from Jerome tells of the total destruction of the United Verde's sawmill, located at the southwest corner of the grounds, by fire, which also threatened for a time to consume the boiler house as well. In addition to the loss of the sawmill, which is estimated at between \$20,000 and \$25,000, by General Manager Clark, several coal cars, which were standing on a trestle, were destroyed by the flames, portions of the trestle work being likewise consumed. The fire started from a leaking burner in the boiler room, and in a short time the flames had spread to every part of the sawmill. Despite the heroic efforts of the United Verde's fire department, the mill was soon a total loss, and attention was then turned to saving the boiler house, which adjoined the mill. Six streams were played on the boiler house, which several times became ignited, but the flames were finally conquered.

School Girls to Be Taught to Make Biscuit

BISBEE, Ariz., October 9.—Domestic science was taken up today in the city schools, the girls of all grades above the eighth participating in the instruction given by Miss Merritt, one hour each week. The class is a new one in the Bisbee schools. The course of instruction which is very important to the future mothers of the race, consists of sewing, cooking and general household duties necessary to be known to every wife and mother. The class is divided into periods, each grade taking separate instruction and each week learning some new thing about future household duties. Miss Merritt, instructor of the branch, is well fitted to carry on the work, being a student of the Pratt Institute of Brooklyn, N. Y., and of the Normal school at Flagstaff, Ariz.
